ABOUT

As a fresher candidate I'm eager to join the IT industry and looking for full-time jobs in this sector. I'm an enthusiastic and dedicated aspiring Web Developer passionate about crafting seamless and user-centric digital experiences. Proficient in UI/UX design and Frontend technologies such as Figma, HTML5, CSS, JavaScript, and React, coupled with a little bit knowledge in back-end development using Node.js and Express. Eager to contribute innovative solutions, learn new things & grow within a dynamic team environment.

WORK EXPERIENCE

Internship as a Frontend Developer (UI/UX Design)

Sisyphus Infotech | Duration : May 2024 - Till now

- Contributing to the frontend design and coding of a transportation website called **Totojan**.

Totojan Website Project Details

This project is about a transportation website which will offer online toto booking service to their users just like OLA, UBER.

Features that I developed so far -

- Figma Design:** Clean and professional wireframe design, ensuring a consistent look and feel across all pages.
- Responsive Design:** Fully responsive layout that works seamlessly on desktops, tablets, and mobile devices.
- Smooth Animations & Interactive Elements:** Enhance user engagement and demonstrate proficiency in React Js.
- Technology used:** Figma, React Js, Tailwind CSS, Dev UI, JavaScript, CSS, HTML5.

Zreyas Technology | Duration : February 2024 - April 2024

- Contributed to the frontend design and development of a grocery website named **Healthyfly** using React.js, Next.js, and Material-UI.
- Successfully received an internship certificate and approval of design for development.

Healthyfly Website Project Details

This project is about a grocery website where I worked as a frontend developer, showcasing a wide range of healthy products and user-friendly shopping experience.

Features that I developed -

- Material-UI Design:** Clean and professional interface, ensuring a consistent look and feel across all pages.
- Responsive Design:** Fully responsive layout that works seamlessly on desktops, tablets, and mobile devices.
- Smooth Animations & Interactive Elements:** Enhance user engagement and demonstrate proficiency in React & Next Js.
- Product Listings:** Detailed sections for each product, including descriptions, prices, and images.
- User Account Management:** Features for user registration, login, and profile management.
- Shopping Cart:** Easy-to-use cart functionality for adding, removing, and viewing items.
- Contact Form:** Easy-to-use form for customers to get in touch with support directly.
- Technology used:** React Js, Next Js, Material UI, JavaScript, CSS, HTML5.

SELF PROJECTS

Portfolio Website

This project is about my portfolio website a showcase of my skills and projects in front-end development and UI/UX design.

Features -

- Material-UI Design:** Clean and professional portfolio, ensuring consistent look and feel across all pages.
- Responsive Design:** Fully responsive, optimized for desktops, tablets, and mobile devices.
- Smooth Animations & Interactive Elements:** Enhance user engagement and demonstrate proficiency in React.
- Personal Bio Section:** Highlights my background, skills, and interests in front-end development and UI/UX design.
- Contact Form:** Easy-to-use form for visitors to get in touch with me directly.
- Technology used:** React Js, Material UI, JavaScript, CSS, HTML5.
